Novo cinema pearl qatar contact number

Upon entering, you are escorted by extremely welcoming staff in the living area consisting of marble floors and two comfortable (and very cozy) looking living areas. It is here, where you are offered a tray of your welcome signature fruit cocktail drink to get you settled in. Within this area there is also the snack counter that you can buy the usual food and drinks from the cinema, but you are advised not to. What? Well, this all becomes apparent after a short time. The 39-seat theater offers the highest quality leather reclining chairs in a 2-2-2 line formation (and a single row back at the back), thus making the initial remarkable observation of how private the start-up is. Your movie companion next to you is at least feet away and those at the top have a constricted view of your seats, as the seats are a little locked. The next key observation after privacy, is comfort. As mentioned the theater is covered with recliners, which with a few clicks of the button, totally reclining to that of a bed! Now, tell me, who doesn't like watching movies in bed? This is the experience novo offers 7 stars. No bed can be entirely comfortable or cozy without pillows and blankets, and Novo seems to have the same mindset, as each recliner has its own thick prepackaged blanket and satin covered neck pillow placed waiting affectionately for each guest. Here may be a good time to insert a side note: You will be grateful for the thick hot blanket! As most know, cinemas in the region tend to have a penchant for turning up the volume of air conditioning; this blanket (or even a couple more) will do wonders to protect yourself from this cold. Apart from the seat controls, the other features in the recliner is what really takes the experience to another level. Remember that it was mentioned earlier, that upon arrival you are advised not to stand by the snack counter and place an order? Well, the reason it's because every reclining seat has its own tablet that can be used to order all the snacks directly from. A-MA-ZING! So, again, as you can see, comfort and comfort is very president throughout the experience. The tablet allows you to navigate through an extensive pictorial menu of food and drink, and as you continue to browse what is on offer, you will surely begin to realize that the selection is very different from the standard popcorn, nachos and hotdogs commonly found on regular counters. You can enjoy your movie whilst eating at a variety of meals, such as fresh salads, Arabic mezzes, sliders, pizzas and premium ice cream just to name a few! The wide variety of food in cinema allows all palates to satiate their desires. And with such an amazing premium menu, it is fitting that your food is served to you in premium chinaware, directly to the side table attached to your recliner. This whole process certainly praises, and reiterates novo's concept and 7-star standards. In consideration of the the quality of the food and beverages (hot and cold) that are available, as well as the attention to the presentation and delivery of food, the cost of refreshments within the 7 star experience is relatively reasonable and good value. Also, if you need service from any of the staff at any time during the film, the staff is just a press of a distance button; The tablets on the seat have a call function to alert staff of seats/ private guests. Again, a great feature that provides the best in comfort and comfort to Novo's 7-star experience customers. The screen and sound quality during the movie experience itself, is top quality and this screen can play – in rotation, up to four different movie titles during the course of the day. So hopefully the 7-star experience can be enjoyed by a variety of audiences of different genre tastes. The 7-star Novo Cinema offers you the best luxury movie service and experience, and as such automatically expect the entry fee to be higher than the standard. So, even with input priced at QR150, the screen is definitely worth a try, so to experience the latest in movie watching luxury.
